

Senior Commissioning Authority – San Francisco Office

Ambient Energy is a socially responsible third-party consulting firm specializing in commissioning, energy analysis, and sustainable design. Our team works with owners, architects, and contractors to push limits in the design, construction, and operations of high-performance buildings. Headquartered in Denver, we are adding a seasoned commissioning engineer to independently lead projects from our San Francisco office. If this fits you, apply now:

- **Motivated**...by our vision to improve the social and environmental impact of buildings by ensuring they work properly, are thermally comfortable, and save energy
- **Innovative**...develop and identify opportunities for improvements and best practices
- **Technical**...have industry experience to provide great technical reviews for the team and responses to project team questions; experienced in mechanical and electrical design, building controls, and energy efficiency
- **Organized**...experienced in managing project budgets and schedules, developing proposals and scopes of work

Requirements

- 4+ years of professional experience working as a Commissioning Engineer or MEP Design Engineer
- Experience with site inspections and functional testing
- Experience working with clients and contractors, managing project deliverables and budgets
- Technical knowledge and understanding of HVAC, HVAC controls and electrical systems
- Demonstrated technical review, writing, and editing skills
- Approximately 10%-25% travel in the West/Mountain West regions
- BS in Mechanical or Electrical Engineering or related discipline required

Enhancement Options:

- PE, MS in Mechanical or Electrical Engineering, CxA, CCP or QCxP.
- Experience working on official LEED projects; LEED AP certification
- Energy Audits/Energy simulation/modeling experience
- Participating in business development and proposals

We offer: competitive salary, comprehensive benefits including health, dental, vision, disability, and life insurance, 401k plan with company match, flexible work schedules, telecommuting 2 days per week, paid time off, personal development time/budget, paid volunteer time, healthy snacks, and the opportunity to impact and shape the future of the built world!
